Certificate
for the cosmetic products
Skinanim Day Balsam
Skinanim Night Balsam

The application test performed under dermatological specialists control showed that the products were tolerated

very well.

The ordered test for the compatibility conducted by Dermatest® GmbH from 19.08.2011 revealed that 20 subjects tolerated the mentioned products very well during the course of the four-week study. There were no undesired or even pathological skin reactions in the test area during the clinical-dermatological application test.

Based on the very good compatibility during the four-week test the products receive the
Dermatest® 5-stars seal.
